2. Indian Film Industry

Indian Cinema emerged as a powerful medium of socio-cultural transformation in the country during the 20th century. Being an entertainment industry, it has not only left a memorable mark on people's social behavior but also assumed the form of an important economic activity. Cinema has played a major role in promoting tourism by familiarizing the viewers with a large number of scenic and culturally rich locations. Without any doubt, Indian films have been of great help in projecting the image of contemporary India not only within but also outside India. The global impact of cinema is increasing day by day for the aforesaid reasons and the Government of India has decided to accord the status of an Industry to films.

Bahu Fort, Jammu

Since the film industry is an important vehicle for social, cultural and economic development, a well-nurtured film industry can be a major source of wealth creation, employment generation and effective tool and platform for preservation of culture and expression of the people of Jammu & Kashmir. The industry can promote Jammu & Kashmir's potential as an investment and tourist destination even as it acts as a powerful tool for the dissemination of its culture.

The J&K Film Policy-2024 has been formulated to attract greater investment in the film sector and will make Jammu and Kashmir a choicest destination for film shooting of both national and international Producers.

a. Indian Film Industry Current Scenario

The Indian film industry is one of the largest producers of the cinematographic films in the world with an annual certification of 2,336 films during FY15–16. Also, the Indian film industry is one of the fastest-growing sectors in the country today and has grown from Rs. 122 billion in 2016 to Rs. 156 billion in 2017 representing a growth rate of 28%. The said industry producing over 1,986 films per year with Hindi (364), Tamil (304) and Telugu (294) being the three largest film producing languages. Also, India is the 4th largest film market in the world – generated \$2.1 billion theatre revenue

Hazratbal, Srinagar

contributing 4% to the global theatre revenue in 2015. Film Tourism describes the effects that cinema can have on our travel decisions as they inspire people to experience the screened places first hand. Not only is cinematic tourism an excellent vehicle for destination marketing but it also presents new product development opportunities such as location tours, film museums, exhibitions and the theming of existing tourist attractions with a film connection.

b. Success of Regional Films

Strong regional content is gaining acceptance in both domestic as well as overseas markets. Bahubali, a Telugu-language film became the highest-grossing film within India and third highest globally. The regional language films like Tamil, Bengali, Malayalam as well as Punjabi are driving the regional film industry.

3. Sector Presence in Jammu & Kashmir

In 1960, the Kashmir region of the UT was quite popular amongst Bollywood Directors who endeavored to capture the beauty of the region in the best way they could. Films like “Kashmir Ki Kali”, “Jab Jab Phool Khile”, “Himalaya Ki Goad Mein”, and “Janwar”, made Srinagar and Gulmarg popular destinations with people marveling at their scenic and pristine beauty.

Two films - Bill Murray's "The Razor's Edge" (1983) and "The Climb" (UK Film) 1986 were also shot in varied locations of the Kashmir Valley.
